Da sempre Mori pone particolare attenzione alle soluzioni espositive nei punti di vendita, in sintonia con la sua filosofia, il suo posizionamento di marketing ed in una visione di vero e proprio servizio alla clientela. Sono stati in tal senso progettati espositori che mentre attirano l'attenzione e valorizzano il prestigio del marchio, facilitano la visione delle proposte e consentono il contatto diretto con i prodotti esposti. Significativo esempio di queste scelte sono i nuovi espositori lineari creati per ottenere un elevato impatto scenografico ma anche la massima armonia di linee, in sintonia con l'immagine complessiva Mori. Gli elementi espositivi Mori permettono di realizzare varie soluzioni di merchandising lineare e corner. In queste immagini alcune possibili soluzioni, puramente indicative, di come possono essere utilizzati i moduli. Grazie alla loro versatilità possono infatti essere creati altre tipologie di allestimento, quelle che meglio rispondono allo spazio e alle caratteristiche dell'ambiente nel quale vanno a collocarsi.

In harmony with its philosophy and marketing placement, and in the light of a complete customer service, Mori has always paid particular attention to "in-store" display solutions. Mori display racks are conceived to catch the customer's attention while enhancing the brand value, favouring a complete view of and a direct contact with displayed products. The new straight-shaped display racks allow achieving a catching result and an optimal design harmony, in line with Mori overall image. Display racks are conceived to limit space encumbrances in the shop while leaving several possibilities for product display. But most of all, they allow extending exhibition space at one's pleasure thanks to their versatility and modularity. Mori display components allow adopting several line and corner-shaped merchandising solutions. These images show some possible solutions, providing a rough guide on how these modules may be used. Thanks to their versatility, other mounting solutions may in fact be created, based on the different characteristics of the space and environment they are going to be placed in.

Soluzioni tradizionali, con strutture accostate al muro. Permettono di esporre un ampio assortimento di posate e complementi per la tavola e posate. Traditional "against the wall" display solutions. A wide range of cutlery and tableware can be displayed.
